

Mission Statement

Standards Training & Consulting is founded on the principle of providing the highest level of quality training possible. Taking a holistic approach to its training programs, Standards Training & Consulting develops every class to accommodate the unique needs of its clients; taking into account organizational culture, adult learning styles, modern academic theories, and the “best practices” currently available in the market. Standards Training & Consulting provides the tools and resources necessary to raise your standards.

Vision

To bring honest, realistic, and complete services to each and every client. We look to provide a foundation for progressive training and advancement to organizations and individuals. We envision transformational growth and elevated operational standards for every one of our clients.

Values

Standards Training & Consulting values first and foremost their clients. The unique needs of every client are paramount to the curriculum development process. We value the ethical, holistic training platform. We aim to reach every student in every class every time.
