

Private Security Officer

Training for Private Security Companies & Officers

In today's modern age, there are numerous threats facing private businesses and institutions, some of which we have never seen before. Bomb threats, violent intruders, acts of terrorism, protests, and other criminal activities are becoming commonplace. Private security officers are tasked with a wide array of responsibilities and now must look towards addressing these emerging threats to the properties and companies they protect. Standards Training & Consulting provides the tools, resources, and education to help address and deal with many issues facing private security companies and officers. The following are some of the courses and services offered:

- "ALICE" Violent Intruder Training
- Telephonic Bomb Threat Response
- Safety Assessments and Target Hardening
- Emergency Procedure and Policy Review
- Contraband and Improvised Weapons Recognition
- Situational Awareness
- Criminal Behavior
- Forming and Strengthening Government Partnerships
- Community Oriented Policing Concepts
- Tactical Communication
- Intelligence Gathering
- Field Training Programs
- Leadership and Team Building

Standards Training & Consulting offers topic specific classes, as well as personalized curriculum to expand the knowledge and skills of private security officers to effectively operate in the ever-changing world of private security.
